## PRODUCT NAME – RUST-X PROTAPPE

### PRODUCT CODE – PROTAPPE

### PRODUCT DESCRIPTION

Pro-tape is a cost effective solution to protect your floors, windows & doors, glass for scratches, dust, and paint & polish stains during construction.

We make surface protection film suitable for substrates like Stainless steel, Coated metals, Aluminum Composite Panels, Clean Room, PVC/Plastic, Decorative laminates and Carpets. We can also design and manufacture protective film for any surface if the customer provides sample of that substrate.

PROTAPE is used to protect surfaces which are highly prone to corrosion & need protection without the application of physical coatings, paints or oils but require long term corrosion protection in covered or open conditions. Simply remove by peeling off the sticker which results in clean, coating-free, adhesive-free surface.

The PROTAPPE has been found to surpass 480 hours of salt spray life and does not allow any corrosion to propagate under the sticker and protects multi-metal parts of any geometry.
